The fee schedule for the Iacobelli - D'Orazio Advanced Training Module Series is structured to allow the attending doctor's patient to receive substantial savings while obtaining state of the art dental implant treatment. To ensure accuracy and clarity for everyone, the Treatment Plan is established with a collaborative effort between the attendee and a faculty member. In order to insure proper preparations, this Treatment Plan should be established, a minimum of four weeks prior to the course date whenever possible. This Treatment Plan will include any potential treatment options and fees. The attendee is expected to review the proposed Treatment Plan and fees with the patient. Please notify your Advanced Training Module Office when this step is complete. Most patients will have questions about their appointment times and finances. The Advanced Training Module office clerical staff will handle specifics of the appointment scheduling and fee arrangements. These staff members are specifically trained to help your patients achieve their goals. Should the attending doctor prefer to pay for the patient's treatment, please notify the clerical staff appropriately.

Registration

Doctor and Staff fees are to be paid in full 2 weeks prior to the course date. To insure the most personal education experience possible, class size and surgical openings are limited, so please register early.

Reserve your spot as you gather your patients for implant surgery by submitting your doctor and staff fees to;

Mark A. Iacobelli DDS, Inc.
8030 Corporate Circle
North Royalton, OH 44133

440-845-7300

For your convenience, we accept Cash, check, MC, VISA, Discover and American Express.

Surgical fees are due at the time of surgery.

Upon completion of registration; directions, exact course times, and accommodation recommendations will be forwarded along with your receipt.
